TO THE WEST! TO THE WEST!

Before making your arrangements to follow the advice of the "thousands who have already gone," it would be well to consider what has been done to make the journey to your "Homes in the West" as pleasant and free from danger as human skill and foresight can accomplish.

By consolidation and construction, a road has been put into operation on the shortest possible line from Nashville, Tenn., to St. Louis, "the future great City of the world." This line, the

ST. LOUIS & SOUTHEASTERN RAILWAY,

has, during the past year, earned an enviable reputation by its smooth track, prompt time, sure connections, and the magnificence of its passenger equipment. Its trains are made up of new and commodious day cars, provided with the celebrated Miller coupler and platform, and the Westinghouse air-brake.

It is possitively the only line running Pullman Palace Drawing-Room Sleeping Cars through without change from Nashville to St. Louis. No other line pretends to offer such advantages, either in distance, time, or equipment. Why, then, journey by circuitous routes? Do not be induced to purchase tickets to St. Louis or the West by any other line, remember that

The "St. Louis & Southeastern"

is the shortest, cheapest, quickest, best and only line under one management from Nashville to St. Louis, and is from 60 to 200 miles the shortest to St. Louis, Kansas City, Omaha, Denver, California, Texas, and all western points. It is also the "Chicago Shortest Line," via Evansville.

You can secure the cheapest rates for yourselves and your movables on application, in person or by letter, to C. S. BARRETT, Southern Passenger Agent, Postoffice Box 242, Chattanooga Tenn., or to the undersigned.

Food in India.

The slender scope of Bengal has been gathered and its seventy millions of inhabitants must live on one-third of their usual amount of food, or receive assistance from abroad. Estimating that the crop is sufficient for forty or forty-five millions to barely live upon, twenty-five millions of human beings are to be otherwise fed. This appalling condition can be better realized, when we remember that in 1847 a famine fell upon five millions of Irish, and notwithstanding the large charity of the neighboring nations, many died of hunger. When it is considered that in India the minimum quantity of food which will suffice for living has long been known from a cruel experience, and the utter hopelessness of a supply from the adjacent countries, we approach the threshold of horrors in store for the people of Bengal.

To the Republican Party of Brunswick County.

(CONCLUDED.)

I have spoken of the necessities of our party, its imminent duties of the day. In consideration, however, that we are the power holding party of Brunswick; ruling in number, dominant in intelligence, regnant in wealth and thrift, as the names of Russell, Thomas, Wescott, Allen, Swain, Brooks, Taylor, ets., amply prove—there is before us even a higher mission, one of graver responsibilities, pointing beyond the field political—it is the rejuvenation of our county, the whole county. Brunswick expects to be helped by us into that advanced rank among the sister counties of the State, to which by its geographical opportunities and latent natural powers it is both qualified and entitled. Communities, like individuals, need but starting to seek and find their own higher levels. As illiteracy and sluggishness are the two most alarming features of the present condition of our county, our foremost task must be the domestication of the system of free public schools. As the blind, however cannot lead the blind, nor the sick cure the sick, little if anything can be expected from our commonwealth at large. All, perhaps, that could be done by constituted authority, say the Commissioners, is, that moneys hitherto wasted upon the many imposed upon us as out door paupers, might be saved for the erection of a poor house, and the surplus appropriated to the increase of our meagre school fund. The more miserly we are dealt with in this respect by the State, the more liberal must our own individual exertions be towards general, universal education; and in the proportion in which the superstructure, upon the foundation given, is to be raised by private means, in that proportion we might avail ourselves to embody into our new school system not the innovations, but the improvements of our age. As object teaching, aids to instruction, and school nurseries (kindergarten) are to general education what railroad and telegraph are to business. I venture to state, that were we to establish, say at Smithville, an agricultural and mechanical county school, upon the system of object teaching, with small farm and workshop attached, embracing, primarily, tuition in the art of teaching; and, secondarily, instruction in the higher branches of common knowledge with daily calisthenics and semi-weekly drill—copies of same, small industrial schools, with little ten acre farms attached, would spring up in less than five years all over our county, scattering ignorance, prejudice, inbred idleness to the four winds.

Next in importance to the eye of the public spirited is evidently the state, or rather condition, of the agriculture of our country. New England farms, though fully sixty years ahead of ours, are said to be forty years behind those of England, Belgium and Holland; it is, therefore, no less than one hundred years, expressed in time, that we lag behind our age. If the term "high farming" stands for that culture of the earth which provides for the thorough *reclamation*, ample *drainage*, correct *manuring*, and proper *irrigation* of the land under treatment, with sagaciously planned *rotation* of crops, then ours is low farming indeed. Are soil and clime the great twin cause of our agricultural poverty? Neither; for while the first readily responds if hardly more than scratched, the latter almost doubles in length, in golden opportunities, the farmer's year of severer latitudes, both being well adapted to certain kinds of agriculture, such as stock farming, the culture of grasses, raising of root crops, and market gardening. Or is the want of capital, for which the clamor is waxing wilder every year, the great drawback? In part only; for certain branches of industry obtrude themselves in vain upon the meanless as cheap modes of living;—the fish, for instance, nibbles round the water skirts of hundreds of premises, ready to be baited into regular trade; so the oyster almost asks to be transplanted into beds washed by the confluence of fresh creeks and sea water. Is it owing to lack of skill that as a people we are living from hand to mouth? The art of earth culture, in its general scope and bearing, might not be understood among us; still, certain sagacity in the management of special crops cannot be denied to many of our farmers. What, then, is the cause of the agricultural stagnation of our country? First, thriftless farm laborers; next, instinctively and habitually indolent farmers. Where lies the remedy? Open good schools; institute farmers' organizations; form labor unions. The good Lord deliver us, however, from the association known as the "Patrons of Husbandry." Not because Grangerism has proven itself West to be "first cousin to Democracy;" nor because some of its ornamental members here are men who—while professedly out of politics, though their mouth still full of political pap—are mainly desirous of being taken care of; nor lastly, because the organization is alleged to be the post human offspring of the latter day Greeley; but on better and higher grounds do I object to the introduction of Granges into our county. Inasmuch as the Granger's breath of life's class-antagonism, and the central idea round which his organization grates is war upon the middleman, the merchant. Grangerism is dangerous to the harmonious and peaceful development of society as constituted, its secrets, at least, tend to revolutionize the science and structure of political economy. Inasmuch again as in ultima analysi, civilization is founded upon the principle of evolution from homegeneous to the heterogeneous, or in other words is based upon the principle of the division of labor and occupations. Grangerism, as of diametrically opposite tendency, stands in bewildered opposition to the very prayers of civilization itself. Inasmuch, lastly, as, according to the logical sequence of the teachings of the patrons, the farmer ought not only be his own banker, merchant and railroad men, but also just like in longtailed China, his own blacksmith, wheelright and mechanic in general. Our Granger is simply an American celestial, and his order is China in America. Nor let the mushroom growth of his organization deceive you, for rest assured its vitality is less, its evanescence greater than was that of Know Nothingism. Heed not, then, its knocking at the door of your county, for whatever its rappings against the spirit and the giants of monopolies may amount to North or West, here South we need not the organization, are much better off without it. What we do most need here is organized, disciplined farm-labor; a general system of labor such as will tear up the moral felony of vagabondage by the root; make the hiring of worthy and guaranteed help facile; establish confidence, good will and the principle of live and let live among employed and employer; and, lastly, group or hive together for co-operative work the many independent toilers of thriftless isolation. Odious and ridiculous as is the Gesler-spirit of the capitalists and employers of the old world expecting the very curbstone of their palaces to be saluted with uncovered head by the humble seeker of work; equally as galling and ludicrous also is the insolence of the squatter sovereign of labor in the new world. The law, however, cannot reach the evil, and any legislative attempts to establish or compel better relations between employed and employer, both being free agents of equal rights, must necessarily be futile. As, in truth, the Republican party is innocently, yet mainly responsible for the present bushwacking of labor South, it behoves us to be first in the initiation of reform-measures so pressingly needed in the field of manual labor. Let us, then, associate farmers, unite laborers, and with there associations and unions combined, rebuild the impaired edifice of agriculture, restore the lost scepter of cotton and rice, or still better, make the world's greatest crop, hay, king in our county.

Producers of the daily more important article of international trade, rosin, and its offspring tar and turpentine, our associated efforts might convert this agricultural course—as turpentine farming always is to communities compelled to indulge in it—into a commercial blessing. With Smithville fitted up for a watering place for which it has natural adaptation, and made into a port of entry—in regular telegraphic and steam communication with Wilmington on one hand, and with in-water or canal travel to and fro the rich timber lands of the lower townships on the other hand—or county seat would become our home market, whence also our export articles could be directly shipped North and across the ocean. This suggestion is not offered with the illiberal view of diverting the inpouring of wealth for timber and naval stores from the metropolis of our sister county, but simply to promote our material prosperity with the wastage of time and money consequent to the circumstance, that Wilmington, although 30 miles off from the mouth of the river, is the only depot for the storing, yarding and shipping of our exports. What I request to urge in the matter is, that owing to the state of the Cape Fear bars and river, foreign bottoms are compelled to ship fully one-third of their cargo in the harbor of Smithville, it is simply stupid waste of expense to carry all the naval stores—those from Little River, Lockwood's Folly, Shallote and the mouth of Town Creek—a distance of from 30 to 70 miles at the waste of the producer, to Wilmington, only to convey it back again to Smithville, at the cost of the shipper, without any corresponding advantage to the commission house or agent in town. The measure advocated would, beside the saving of time and trouble to all concerned, result in a large increase of foreign shipping, as nothing is more annoying to, and more dreaded by, persons of the latter class than the inconvenience of double freighting, the delay, uncertainty and expense of lightering. Then, again, from the middle of June to about the 20th of October, Wilmington is considered and treated by merchant vessels as a dead-pool, owing to the sickness always prevailing at this season, if not in the city, certainly aboard-domestic and foreign bottoms upon the river; with Smithville as an out-post, Wilmington could carry on her foreign commerce without interruption throughout the year, and become in peace, what it was in war, the lungs of the South.

Republicans of Brunswick! Disdain not for the vagaries of a dreamer the series of reform measures humbly recommended to your earnest consideration for the benefit of both party and county. In pointing out to you the vast and noble field of useful work, it is not to lead but to follow that I ask; and in invoking the broad spirit of individual enterprise, such as has created, for instance—to cite but near and home examples—the place and works of Abbottsburg in Bladen, established the Brink colony, the Excelsior plantation in New Hanover, I merely entreat that the energies and efforts by which you have gained in the arena of politics the crown of success you wear, be directed and given in part to general progress, to the development of the spiritual and material interests of Brunswick. If in so beseeching I am judged to presume, my presumption lies in the circumstance that, identified in truth and honor with you, the love I bear for my adopted country, for the welfare and happiness of its people, is certainly not less than yours.

AMERICAN STAR
Leather Preservative
COMPANY.

The attention of the public is requested to the American Star Leather Cleaner and Dresser for Boots, Shoes, Harness and everything in the way of Leather exposed to mud, water or otherwise. It is easily applied, saves time and labor, and is from twenty-five to fifty per cent, cheaper than any other prebaration now in use. It renders the Leather soft, pliable, water-proof and refreshed. One application cleans, oils, blackens and lifts off all foreign matter; then the preparation sinks in giving it a neat, leathery finish. The first premium was awarded it at the American Institute Fair, New York, 1873, also at the Maryland Institute Fair, Baltimore, 1873.
If oil alone is used on Leather, the oxygen of the air has an affinity for the same, weakening the fibres, thereby rottening it. Our article is composed of such ingredients that while retaining all the virtues of the best oils used in refreshing Leather, it is not effected by water, weather or oxygen.
UNIVERSITY OF MARYLAND, }
Nov. 29, 1873. }
My analysis of the American Star Leather Cleaner and Dresser shows that it is composed of substance well known to be bendicial and preservative in their action on Leather, while it contains no free acid and nothing or any kind that can be in any way injurious.

ANOTHER OUSTED.—Wm. FIRE.—The alarm of fire this morning was caused by the burning of a small house on "Chadbourn's Hill," in that portion of the city known as Brooklyn. There being quite a number of men employed at the mill and distilleries in the neighborhood in which the fire occurred, it was extinguished before the engines and hook and ladder companies could arrive. As is their wont, the entire department was out in almost an incredibly short time, but were turned back before arriving at the scene of the conflagration.

THERE was a meeting of the colored people and their friends at Lillington last Saturday, for the purpose of taking into consideration the establishment of a permanent school at that place, that shall not only give to the colored people of this and adjoining counties opportunities such as it is not possible for them now to enjoy, but also to have in connection with it a normal department which, if successful, will in a few years help to supply the great demand for teachers in the country. Rev. H. B. Blake of this city was present and addressed the meeting, showing the need of such a school and how it might be conducted. We are glad to say that there was a goodly number present. Much enthusiasm was manifested, and we trust good results will follow.

THE TOWN CRIER.

— Cold.
— Gold is 110¼.
— Money very scarce.
— Awful gusty to-day.
— Make calls Thursday.
— Blue violets are *so* sweet.
— Magnificent night last night.
— Are the sidewalks all repaired?
— Two alarms of fire this morning.
— Most time for Happy New Year's.
— Now the city will fix the sidewalks.
— The Superior Court will hold night sessions.
— There are some very interesting cases for trial this term.

MASONIC.—The installation ceremonies were well attended last night, a large number of ladies being present. The officers, as heretofore published, were duly installed. Mr. Heinsberger kindly loaned the choir a Burdett Organ, as the Lodge pipe organ is out of order. After the Blue Lodge installations, Bro. Waddell stepped out from among the audience and uncovered a handsome silver service, consisting of ten pieces, standing on a pedestal, and in a few well chosen remarks, in behalf of St. John's Lodge, presented them to Bro. Munson, the retiring Master. Bro. Munson replied, acccepting the free offering with gratitude, and with much emotion. This gift was peculiarly appropriate as Bro. Munson has filled the office for six years in a perfectly satisfactory manner. To any one at all familiar with the duties of this office, not only within the Lodge Room, but outside, including the visitation of every sick or distressed brother, the appropriateness of the gift will be at once appreciated. He has certainly done his full duty, willingly and faithfully. The Chapter and Council officers were then installed and the exercises closed by singing the Doxology, in which the audience joined.

CORRESPONDECE.

The caption of an editorial in the *Star* this morning, "Uunnatural Legislation," is no less extraordinary than funny. The writer, if serious, deserves the gratitude of the colored people for his fears of the consequences of civil rights. There is one strange feature about this unusual interest in us, and it arises from the fact that when North Carolina was the theatre of ku klux outrages, this gentleman failed to discover any wrong in murdering black men and defaming black women.

Now that we are to have legislation which will make negro citizenship none other than white citizenship, and will give us an assurance more potent of protection than the flimsy sympathy of this editor, he flashes falsehood in our faces by saying we are better off than white people.

This writer fears the ruin that will come on the educational system of the South.

We would be glad to learn of *any* educational system that exists in any Southern State, Virginia especially. As for North Carolina there isn't any system worthy of being preserved. So his fears about this State were groundless. We indignantly deny his knowledge of the *animus* of the negro, when he says that he does not want his civil rights.

It is very natural for the politicians of the race to be foremost in asking for them, as white Southern politicians are foremost in prating about the oppression of the South.

The great wrong that will be inflicted upon the negro by the passage of this bill, is that colored men, provided some educational system should be inaugurated here, will not be compelled to send their children out of the State, at great expense, to educate them in ordinary branches, nor in the higher branches, for there will be a *common* school system; there will be the State University for the children of the citizens of the State.

We know the gentleman is not serious, because we can assure him that the comingling of whites and blacks in schools, hotels and restaurants will not produce any closer relation between the races than at present exists. The best blood of Wilmington courses as freely and uninterruptedly in the veins of the negro as in that of the Circassian. The responsibility of this is not attributable to the negro.

The evil consequences of white *forced social equality* has to be borne by the negro in the general disgrace that is entailed on the race. This is unjust; therefore we demand as citizens, such legislation as will protect us against a promiscuous and unlawful intermingling among us, that will protect us in the Courts, that will protect us in travel and in public places generally, and that will make us citizens *de facto* and *de jure*.

NEGRO.

A letter from England says Mr. Motley looks much better that he did two months ago, but is far from well.

THE CITY TAX SALE, advertised for this day at 12 o'clock M., in front of the City Hall was POSTPONED until TOMORROW, WEDNESDAY, 31st INSTANT, at same time and place.

SEVERELY BURNED.—We regret to learn that the daughter of Capt. A. H. Cutts was severely burned this morning. Fears are entertained for her life, but we truly trust that she will speedily recover from her injuries.

VIRGINIUS.—By reference to our telegraphic columns it will be seen that the conjectures are true relative to the noted steamship Virginius being sunk near the mouth of Cape Fear river. She is lying about nine miles to Northeast of Bald Head Lighthouse. The hull is supposed to be resting on the bottom, the topmasts only being above water.

FIRE.—The dwelling of Mr. J. Sidbury, on the corner of Eighth and Castle streets, was consumed by fire about one o'clock to-day. The fire was discovered coming out of the roof, and it is supposed that it originated from some defect in the chimney. The house was new and valued at $2,000; insured for $1,200. Nearly or quite all of the furniture was saved.

Owing to the strenuous exertions of some of the young men of the neighborhood, the house next to Mr. Sidbury's was saved.

THE QUILT AND CUSHION.—To-morrow evening, at seven o'clock, the committee, Messrs. P. Heinsberger, James M. Brown and Donald McRae will superintend the raffling of the quilt and cushion made by our ladies for the benefit of the Oxford Asylum. It is almost useless to say that it will take place at the Live Book Store, as it is generally known. During the disposal of the articles persons can either remain down stairs and listen to some sweet music, or loiter around the picture gallery and examine the fine lot of pictures and chromos on exhibition.

LATEST BY TELEGRAPH.

NEW YORK.

NEW YORK, December 30.

The Ossipee reports that the Virginius, when off Cape Fear, and in sight of land, in spite of all the efforts of the crew aboard her, settled and went to the bottom.

Shortly after the arrival of the Ossipee a reporter boarded the vessel, and had an interview with the officer of the deck. The latter said that he had strict orders not to communicate with anybody in relation to the circumstances attending the foundering of the Virginius. He would not even give the date of the occurrence, or the place where it happened.

The Cuban survivors have been enlarged. The crew of the Vermont cheered them as they passed. They were met on the shore by several Cuban leaders, and taken to quarters. The only Southerner in the list of survivors was Philip Metzler, cigar maker, of Charleston, S. C. The survivors number 101, as follows: English 1, Canada 1, United States 8, Jamaica 10, Havana 29. The average age of the survivors was about 22. The few sick have been well cared for.

A Herald special says that the Spanish Cortes, which meets on January 2d, will place Serrano at the head of the government.

Wm. B. Stevenson, of the New York Herald, a passenger on the steamship City of San Antonio, from Key West, jumped overboard and was drowned.

OHIO.

COLUMBUS, December 30.

The Railroad authorities here say that the strike must break before many days. On the other hand a visit to-day to the rooms of the Brotherhood of Engineers shows them to be as determined as they were last week. They say that Chief Engineer Wilson's orders had no effect on them.

The worst feature of the trouble here was the discovery of obstructions on the track of the Little Miami Railroad in three places within the city limits.

An engine about to leave with the train last night was found to be soaped.

The Railroad authorities are attempting to run all their day trains, and have got more away to-day than any day since the strike commenced.

KENTUCKY.

LOUISVILLE, December 30.

All striking engineers in this vicinty have refused to accept the offer of the Jeffersonville, Madison and Indianapolis Railroad Company, and none of them resumed work yesterday.

At a meeting of the Brotherhood, last night, the authority of Grand Chief Engineer Wilson was disavowed, and the reported acts of violence by striking engineers elsewhere were strongly condemed. No violence whatever in this vicity has been reported.

Prospectus for 1874—Seventh year.

THE ALDINE,

An Illustrated Monthly journal, universally admitted to be Handsomest Periodical in the World. A Representative and Champion of American Taste.

Not for Sale in Book or Music Stores

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost; and then, there are the chromos, besides!

ART DEPARTMENT, 1874.

The illustrations of THE ALDINE have won a world-wide reputation, and in the art centres of Europe it is an admitted fact that its wood cuts are examples of the highest perfection ever attained. The common prejudice in favor of 'steel plates," is rapidly yielding to a more educated and discriminating taste which recognizes the advantages of superior artistic quality with greater facility of production. The woodcuts of THE ALDIFE possess all the delicacy and elaborate finish of the most costly steel plate, while they afford a better rendering of the artist's original.

To fully realize the wonderful work which THE ALDINE is doing for the cause of art culture in America, it is only necessary to consider the cost to the people of any other decent representations of the productions of great painters.

In addition to designs by the members of the National Academy, and other noted American artists, THE ALEINE will reproduce examples of the best foreign masters, selected with a view to the highest artistic success and greatest general interest. Thus the subscribers to THE ALIENE will at a trifling cost, enjoy in his own home the pleasure and refining influences of true art.

The quarterly tinted plates for 1874 will be by Thos. Moran and J. D. Woodward.

The Christmas issue for 1874 will contain special designs appropriate to the season, by our best artists, and will surpass in attraction any of its predecessors.

PREMIUM FOR 1874.

Every subscriber to THE ALDINE for the year 1874 will receive a pair of chromos. The original pictures were painted in oil for the publishers of THE ALDINE, by Thomas Moran, whose great Colorado picture was purchased by Congress for ten thousand dollars. The subjects were chosen to represent "The East" and "The West," One is a view in the White Mountins New Hampshire the other gives the Cliffs, of Green River, Wyoming Territory. The difference in the nature of the scenes themselves in a pleasing contrast, and affords a good display of the artist's scope and coloring. The chromos are each worked from thirty distinct plates, and are in size (12 x 16) and appearance exact fac-similes of the originals. The presentation of a worthy example of America's greatest landscape painter to the subscribers of THE ALDINE was a bold but peculiarly happy idea, and its successful realization is attested by the following testimonial, over the signature of Mr Moran himself.

NEWARK, N.J., Sept 20th, 1873.

Messrs. JAMES SUTTON & Co.

Gentlemen,—I am delighted with the proofs the color of your chromos. They are wonderfully successful representation by mechanical process of the original paintings.

Very respectfully,

(Signed,) THOS. MORAN.

These chromos are in every sense American, They are by an original American process, with material of American manufacture, from designs of American scenery by an American painter, and presented to subscribers to the first successful American Art Journal. If no better because of all this they will certainly possess an interest no foreign production can inspire, and neither are they any the worse if by reason of peculiar facilities of production they cost the publishers only a trifle, while equal in every respect to other chromos that are sold singly for double the subscription price of THE ALDINE. Persons of taste will prize these pictures for themselves—not for the price they did or did not cost, and will appreciate the enterprise that renders their distribution possible.

If any subscribers should indicate a preference for a figure subject, the publishers will send "Thoughts of Home," a new and beautiful chromo, 14 x 20 inches, representing a little Italian exile whose speaking eyes betray the longings of his heart.

TERMS.

$5 per annum, in advance, with Oil Chromos free.

For 50 Cents Extra, the chromos will be sent, mounted, varnished, and prepaid by mail.

THE ALDINE will, hereafter, be obtainable only by subscription. There will be no reduced or club rate; cash for subscriptions must be sent to the publishers direct, or handed to the local canvasser, without responsibility to the publishers, except in cases where the certificated is given, bearing the facsimile signature of JAMES SUTTON & Co.

CANVASSERS WANTED.

THE SUN.

—:o:—

WEEKLY, SEMI-WEEKLY, AND DAILY.

THE WEEKLY SUN is too widely known to require any extended recommendation, but the reasons which have already given it fifty thousand subscribers, and which will, we hope, give it many thousands more are briefly as follows,

It is a first rate newspaper. All the news of the day will be found in it, condensed when unimportant, at full length when of moment, and always presented in a clear, intelligible, and interesting manner.

It is a first rate family paper, full of entertaining and instructive reading of every kind, but containing nothing that can offend the most delicate and scrupulous taste

It is a first rate story paper. The best tales and romances of current literature are carefully selected and legibly printed in its pages.

It is a first rate agricultural paper. The most fresh and instructive articles on agricultural topics regularly appear in this department.

It is an independent political paper, belonging to no party and wearing no color.—It fights for principle, and for the election of the best men to office. It especially devotes its energies to the exposure of the great corruptions that now weaken and disgrace our country and threaten to undermine republican institutions altogether. It has no fear of knaves, and asks no favors from their supporters.

It reports the fashions for the ladies and the markets for the men, especially the cattle markets, to which it pays particular attention.

Finally, it is the cheapest paper pulished. One dollar a year will secure it for any subscriber. It is not necessary to get up a club in order to have THE WEEKLY SUN at this rate. Any one who sends a single dollar will get the paper for a year.

We have no traveling agents.

THE WEEKLY SUN.—Eight pages, fifty six columns. Only $1 00 a year. No discounts from this rule.

THE SEMI-WEEKLY SUN.—Same size as the Daily Sun. $2 00 a pear. A discount of 20 per cent. to clubs of 10 or over.

THE DAILY SUN.—A large four page newspaper of twenty eight columns. Daily circulation over 120,000. All the news for 2 cents. Subscription price 50 cents a month, or $6 00 a year. To clubs of 10 or over, a discount of 20 per cent. Address,

LITTELL'S LIVING AGE

A weekly magazine of sixty-four pages. THE LIVING AGE gives more than THREE AND A QUARTER THOUSAND double column octavo pages of reading matter yearly, forming four large volumes. It presents in an inexpensive form, condensing its great amount of matter, with fulness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Poetry, Scientific, Biographical, Historical, and Political Intelligence, from the entire body of Foreign Periodical Literature.

A NEW SERIES

Was begun Jan. 1, 1873, with entirely new Tales, already embracing Serial and Short Stories by distinguished English, French, German, and Russian authors; viz., Lever, Lytton (Bulwer,) Erckmann-Chatrian, Ivan Turguenieff, Miss Thackeray, Mrs. Oliphant, Fritz Reuter, Mrs Parr (author of "Dorothy Fox") Julia Kavanagh, &c.

During the coming year, as heretofore, the choicest serial and short stories by Leading Foreign Authors will be given together with an amount unapproached by any other periodical in the world, of the best literary and scientific matter of the day, from the pens of the above-named and other foremost Essayists Scientists, Critics, Discoverers, and Editors, representing every department of knowledge and progress.

The importance of THE LIVING AGE to every American reader, as the only complete as well as fresh compilation of generally inaccessible but indispensable current literature,—indispensable because it embraces the productions of THE ABLEST LIVING WRITERS in all branches of Literature, Science, Art, and Politics,—is sufficiently indicated by the following

OPINIONS.

"Reproduces the best thoughts of the best minds of the civilized world, upon all topics of living interest."—Philadelphia Inquirer.

"In no other single publication can there be found so much of sterling literary excellence."—The Nation, New York.

"And the cheapest. A monthly that comes every week."—THE ADVANCE, CHICAGO.

"The ablest essays, the most entertaining stories, the finest poetry of the English language, are here gathered together."—Illinois State Journal.

"With it alone a reader may fairly keep up with all that is important in the literature, history, politics, and science of the day."—The Methodist, New York.

"In view of all the competitors in the field, I should certainly chose "The Living Age"—Rev. Henry Ward Beecher.

"The best periodical in America."—Rev. Dr. Cuyler.

"Has no equal in any country."—Boston Press.

"Indispensable to every one who desires a thorough compendium of all that is admirable and noteworthy in the literature world."—Boston Post.

THE LIVING AGE is sent a year (52 numbers,) postpaid, on receipt of $8; or six copies for $40,

EXTRA OFFERS FOR 1874.
